

**DEPARTMENT OF ENVIRONMENTAL PROTECTION & SUSTAINABILITY**

Interoffice Memo

TO: Dennis Genito  
Watershed Restoration Section  
Department of Environmental Protection and Sustainability

FROM: James A. Markle P.E., Manager /signed/  
Department of Environmental Protection and Sustainability  
Stormwater Management Section

DATE: March 28, 2018

SUBJECT: Scotts Level Branch at Upper Scotts Level Park Stream Restoration  
Stormwater Management Variance  
Gwynns Falls Watershed  
**EPS Project ID: M180050**  
**Tracking Number: 04-18-2685**

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the restoration of Scotts Level Branch Stream at Upper Scotts Level Park. The existing cover conditions will be re-established once the restoration is completed. Although the disturbed area is in excess of 5,000 square feet, there will be no significant increase in impervious area as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.
